COUNCIL PROCEEDINGS

SPECIAL SESSION.

SPECIAL session of the Council, held for the purpose of organization, at the Council Chamber, City Hall, on Wednesday, January 1, 1913, at one o'clock p. m.

The Clerk called the Board to order.

Present—Councilmen Anderson, Delaney, Duffy, LaPointe, Larkin, Luehs, McFeely, Pflugh, Rath and Schmulling.

Absent—None.

The following communication from His Honor Mayor Cooke was presented, read and received:

Mayor's Office,

Hoboken, N. J., Dec. 31, 1912.

Mr. James H. Loundrigan, City Clerk:

Dear Sir—You will please call a meeting of the Council for Wednesday, January 1, 1913, at 12 o'clock noon, for the purpose of organization and the transaction of such other business as may come before it.

Respectfully yours,

MARTIN COOKE, Mayor.

The Clerk stated that the first business in order would be the election of a permanent Chairman of the Council for the ensuing year.

Councilman Duffy presented the following: Resolved, That Frederick J. Anderson be and he is hereby elected permanent Chairman of this Council for the ensuing year.

Adopted by the following vote.

Ayes—Councilmen Deane, Duffy, LaPointe, Larkin, Luehs, McFeely, Pflugh, Rath and Schmulling.

Nays—None.

Declining to vote—Councilman Anderson.

The Clerk declared Councilman Anderson elected permanent Chairman of the Council for the ensuing year, and requested Councilmen Duffy and Schmulling to conduct him to his seat.

The Chairman having been conducted to his seat, returned thanks for the honor conferred.

Councilman Duffy moved that a Committee of two be appointed to wait on His Honor the Mayor and ascertain if he had any communications to present to the Council.

Chairman Anderson appointed as such committee Councilmen McFeely and Schmulling.

The Committee, on returning, presented several communications and the following Annual Message from His Honor Mayor Cooke:

Mayor's Office,

Hoboken, N. J., Jan. 1, 1913.

To the Council:

Gentlemen—It affords me much pleasure

to submit to you this, my second annual message, reviewing the progress of the past year, and referring to the benefits our administration may afford our citizens during the ensuing year. In my previous message, I stated that we were confronted with many problems that would require patient, painstaking and impartial consideration, and while we feel that we achieved some substantial success in our undertaking, nevertheless I am constrained to urge that you co-operate with me throughout this present year in the same patient, painstaking and impartial manner you gave to the work last year, to the end that we may achieve the fruition of our labors. Our achievements throughout the past year were the result of our mutual interest, application and co-operation.

I avail myself of this opportunity to hereby express my sincere appreciation to those citizens whom I appointed on January 1, 1912, and designated as a "Charter Commission," for the interest and zeal they manifested in the consideration and preparation of a proposed charter to meet the present requirements of our city. The said commission met from time to time, and as the result of their labors submitted to the Legislature for enactment a bill which, in the judgment of said commission, would meet the necessary requirements of our city, but which failed of enactment. There is at the present time a State-wide agitation for a constitutional convention, and one of the main reasons advanced therefor is the desire of municipalities that the Constitution be so amended as to permit municipal self-government and allow a greater latitude in the principle of home rule. In those States where constitutional conventions have recently been held such an amendment has invariably been proposed and adopted. The legislative attempts of the past few years in endeavoring to bring about the much desired municipal home rule have not been successful.

I feel quite confident that such a convention will be called in the near future, and we should then obtain the much desired authority for municipal home rule.

SEWERS.

I feel that our citizens are to be congratulated on the progress that has been made throughout the past year toward the solution of the sewer problem, which has been agitated—but agitated only—for many years past. Your honorable body, in accordance with the suggestion which I made to you in my previous message, engaged the services of James H. Fuertes, Esq., a competent engineer, to investigate the entire situation and submit to you a proper and adequate plan or system of sewerage, and said engineer, after many months of careful observation,

Apr. 1/13

investigation and study, has prepared and submitted to you a report which is most explanatory of the character and condition of our present sewer system, points out the deficiencies therein, and recommends for adoption a plan of sewerage and drainage devised by him not involving pumps, which will adequately meet our requirements. The plan recommended by Mr. Fuentes in his said report and accompanying drawings is referred to therein as Plan B. Its essential features are as follows:

1. A system of combined sewers to receive both the sewage and storm water of the unsewered part of the city.

2. The rebuilding of several of the existing sewers.

3. The reduction of the area tributary to certain of the existing sewers by diverting some of the sewage therefrom to the new sewers.

4. The extension of the outfalls, for the dry weather flow of sewage, to the pierhead line.

5. The provision of arrangements for properly flushing the sewers.

6. The establishment of grit chambers and automatically cleaned screens at the outfalls.

7. The diversion of the sewage from the canal and from slips and docks along the river front.

I recommend the adoption of the aforesaid plan and the prosecution of the work thereunder as soon as possible. I would further recommend that the Fifteenth street sewer and the Eleventh street sewer, as mentioned in the aforesaid plan, be first constructed. By the adoption of said report you will provide for a uniform plan, in accordance with which all sewers to be constructed in the future will be required to conform, and you will have thus paved the way for that which I am convinced will be the particular thing above all others that will stand forth as the most notable achievement of our municipal betterment in this decade. While the construction of the aforesaid sewers will doubtless make possible the development of the northwestern section of our city, the entire cost thereof should not, in my opinion, be imposed upon the city at large.

The cost of the construction of the lateral sewers at least should be assessed against the property which will be specially benefited thereby, and the commissioners of assessment should, after giving the matter careful consideration, apportion the cost accordingly.

FINANCES.

The financial condition of our city is especially gratifying. During the past year we have issued bonds for the completion of Elysian Park, for the repairing of streets, and

for schools. The prices for which such bonds were sold speaks well for the financial condition of our city. Under previous administrations the sinking funds were not properly cared for, but now each sinking fund is kept intact and separate and apart. Hoboken's financial condition is enviable, as is evident by a comparison of assets against bonded debt, and we should strive to maintain such favorable conditions. While during the present year bonds will have to be issued for the construction of the proposed sewer system and for street improvements, particularly the reimprovement of Washington and Ferry streets, there is no one who really has the best interests of our city at heart but will agree that such improvements are not only absolutely necessary but also that the issue of bonds therefor will be fully justified. The city will be well repaid by such betterments in the further development of property and the consequent increased returns from taxes.

During the past year you have, in accordance with my recommendation of one year ago, devised a series of triplicate requisitions for work and supplies whereby direct responsibility is placed for the issue of requisitions by the various departments and committees and a proper record kept thereof.

It is particularly gratifying to me to be able to inform you that I have received from the printer a copy of the financial statement of our city for the fiscal year 1911-1912. I have been insistent in my demand thereof. This is the first financial statement prepared in five years and we should see to it that the neglect to issue a financial statement yearly, as required by the charter, should not be countenanced for the future. I know of no reason why a financial statement should not be prepared by the Comptroller at the close of each fiscal year, and such should be required not only for the information of the municipal officers but for our citizens. I would recommend also that you require the Comptroller to prepare and submit to the Council and to the Mayor, monthly, a concise statement showing the condition of appropriations and various funds, including the sinking funds.

I would advise you to consider the advisability of issuing in the future serial bonds, in place of long term bonds as heretofore. It seems to me that the issue of serial bonds will not only obviate the administrative requirements of the sinking fund method, but will demonstrate that the cost thereof will be less burdensome to the taxpayers.

STREETS.

During the past year the following streets have been repaved: Jackson street, from

First street to Paterson avenue; Monroe street, from Newark street to First street; Clinton street, from First street to Third street; Willow avenue, from Eleventh street to Thirteenth street; Hudson street, from Fifth street to Sixth street; Monroe street, from Fifth street to Sixth street; Sixth street, from Madison street to Monroe street; Second street, from Willow avenue to Madison street. The aforesaid reimprovements I feel are in line with the manner in which such work should be done; they are all good permanent pavements, laid upon a concrete foundation, and will doubtless give satisfactory service. During the present year I hope to see Washington street and Ferry street repaved. While it may be advisable to repave Washington street with a smooth pavement, I think Ferry street should be repaved with a stone block pavement; both pavements should be laid upon a concrete foundation, as will afford a lasting improvements. Now that conduits have been laid in Washington street by the Public Service Corporation, you should require said company to immediately remove from the streets the unsightly poles and overhead wires and place said wires in said conduits. This change will not only beautify our streets but will comply with the recommendations of the Board of Fire Underwriters, afford greater facility to our fire department to cope with fire whenever occasion may require, and afford to our citizens a reduction in the rates of fire insurance. I have already conferred with the officers of the Public Service Corporation with reference to the removal of said poles and wires and they have assured me that the matter will have their early attention. The said company has also informed me that in accordance with my wishes they will erect upon Washington street, in place of the present unsightly wooden poles, ornamental iron poles, whereon shall be affixed their street lamps. In my previous message I recommended that you ascertain whether you have the power to regulate the matter of uniform sidewalks of an established grade, or whether it is necessary to seek legislation therefor, and I again commend this matter to your earnest consideration.

The Public Utility Commissioners have recently "ordered" a reduction in the price of gas within the Paterson District to 90 cents per 1,000 cubic feet and "recommended" a reduction of the price of gas within the Hudson County District to 90 cents per thousand cubic feet. Jersey City has filed a petition with the Public Utility Commissioners seeking a reduction in the price of gas to 80 cents per thousand cubic feet, and in the interests of our city I recommend

that you request the Corporation Attorney to join with Jersey City in the prosecution of said petition, and if necessary that the Corporation Attorney be directed to present a similar petition to the Public Utility Commissioners on behalf of the city of Hoboken.

I believe that it would be well for you to consider the advisability of investigating the quality of gas and electric light furnished to our city, with a view of ascertaining whether the contract specifications relating thereto are being fully complied with.

FIRE DEPARTMENT.

It gives me great pleasure to say that our fire department is in very good condition.

The efficiency of the uniformed force is of a very high standard. The apparatus and horses are all in good order, and the buildings, with the exception of Engine House No. 4 and Engine Company No. 3, are in good sanitary condition and in good repair.

With reference to Engine House No. 4, located on Park avenue, I would advise that nothing be done until it was clearly established that auto fire apparatus is beyond the experimental stage and is generally adapted for the work or extinguishing fires; then very little money would be required to place this house in good repair and suitable for the installation of an auto fire engine.

The house of Engine Company No. 3 and Truck Company No. 2, located at the junction of Newark and Ferry streets, is in such a bad state of repair, and the overcrowded condition both of the apparatus and dormitory floors is such that I feel it my duty to advise that your honorable body take steps to acquire land in the westerly section of the Fourth Ward and erect thereon a suitable building for the installation of Engine Company No. 3. The acquisition of the land and the erection of the building should, in my opinion, cost about \$20,000. The segregation of Engine Company No. 3 and Truck Company No. 2 would relieve the congested condition existing in the house of these companies and afford better fire protection in that portion of the city.

THE SCHOOLS.

The administration of our schools for the past year has been somewhat handicapped by the frequent changes in the personnel of the Board of Education. The uncertain legislation of 1911 is wholly responsible for this condition of affairs. There were no less than twenty-one school districts in the State which were affected by this school legislation. The school law of 1911 which provided for the appointments of Boards of Education was so loosely constructed as to

admit of various interpretations. The legal status of the Board of Education was finally established by a decision from State Department of Public Instruction. The Board of Education as it is now organized is free from legal entanglements and has settled down to its administrative duties with the sole purpose in view of raising the standard of our schools.

For the past two years the greatest hindrance to school work has been the lack of school accommodation. Since the demolition of the building known as School No. 1 the thousand children that formerly occupied that building at a great inconvenience have been attending School No. 4, and have enjoyed only a half-day's schooling during that period. I fully recognize the fact that the patrons of School No. 1 are entitled to better consideration at the hands of the school authorities, and that they have been very patient throughout the long and complicated controversy; but they should bear in mind that the "No. 1 School muddle" was handed down to my administration as a very undesirable heritage. My appointees to the present school board are not in any way responsible for the existing conditions that confront them; on the contrary, they ought to be commended for their earnest efforts that they are making to straighten out the "unwarranted conditions," which were handed to them by their predecessors.

I firmly believe that the present Board of Education has at last solved the question of a new school building, to be erected on the site of old School No. 1, which, in every way, will be commensurate with our needs; and that the patrons of that district will soon come into the full possession of their own and will be fully rewarded for the patience that they have so graciously exercised.

The excellence of our school system commends itself to the citizens of our city. During the past few years great attention has been paid to the physical side of the child. Three years ago the Board of Education appointed three medical inspectors, to look after the physical well-being of the child, and recognizing the importance of this work another inspector was appointed this year, so as to increase the general efficiency. To make the work of the medical inspectors more effective, a school nurse was appointed. The nurse has been of great value in many ways in following up the work of the medical inspectors in improving the conditions in the homes, in bettering the physical condition of the child and in directing and promoting better school attendance.

The establishment of a dental clinic is another phase of school work, which has met

with the strongest commendation in remedying the many ills which come from defective teeth. The free dental clinic makes it possible for those parents of scant means to obtain treatment of their children's teeth at no expense.

In order to make the medical inspection of school children still more effective, the Board of Education has established a thoroughly equipped free clinic in the High School Building. This clinic, which is open three afternoons of the week, is in charge of the medical inspectors and the nurse, who give their services free to the children of the deserving poor of our city. Everyone who has come in touch with the work of the clinic is unqualified in approval of its value.

Supplementing the work of the educational department is that of the Free Public Library.

With the opening of a branch in the High School Building, fully equipped with upward of one thousand reference books, in charge of an experienced reference librarian, the work of the High School has been greatly facilitated and expedited.

The opening during the year of the Edward Russ Memorial Law Library, with three thousand modern law books, has become a great benefit, not only to students, but also to the general practitioners of our city.

Through the generosity of the family of the late Dr. Joseph E. Fopeano and Dr. James Rosenkrans, the library has secured a substantial nucleus of what may become a practical medical library.

With a view to stimulating a knowledge of, and a love for, good, wholesome reading in the young, a "story-telling hour" has been inaugurated, and every Saturday morning upwards of one hundred children listen to classic and other stories entertainingly told.

These and other features are making this the most popular institution in the city's government and fully justifies the policy of the trustees to benefit the greatest number with little formality and few restrictions, and when we realize that of its collection of over 50,000 volumes more than 200,000 books were taken out for home use during the past year, it is sufficient indication that they have succeeded to the satisfaction of the reading public.

POLICE DEPARTMENT.

The police department of our city is second to none in the State, in efficiency.

The Board of Police Commissioners were recently requested by the chief of police to appoint additional police officers, so as to insure adequate protection to our citizens, and said board, after careful consideration of the matter, determined that the request was

a reasonable one, that the need of the additional police officers was urgent, and therefore appointed nine additional policemen, thus bringing the number of policemen considerably below that which is authorized by law.

The police have been very diligent during the last year in looking after some of the saloons in our city, proprietors of which seem to have been more concerned in regard to their receipts than to the morals of their business. I expect when the licenses of such saloonkeepers expire and they seek a renewal thereof, the Excise Board will refuse licenses.

LAW DEPARTMENT.

Throughout the past year a considerable sum of money was saved to our taxpayers by the discontinuance of the practice indulged in by the Board of Education of 1911 by the employment of special counsel. In my previous message I called attention to such flagrant misuse of public moneys and recommended that thereafter the Board of Education should not engage special counsel, but should avail themselves of the services of the corporation attorney and the assistant corporation attorney. By adopting my recommendations in this respect, and by said board availing themselves of the services of the corporation attorney, the city has been saved thousands of dollars. Throughout the past year the law department has settled advantageously to the city several old matters, one of which, Calumet Construction Company against the Board of Education of the year 1911 wherein judgment for \$27,300 was rendered against said board in relation to Public School No. 9. This was finally settled for the sum of \$12,750. Another of which, the Mayor and Council of the City of Hoboken against Michael H. Murphy, Theopolus Butts, John Bruning and Martin Steljes, which was pending in the Supreme Court since 1887, was settled for the sum of \$5,000, which has been paid over to the city.

PARKS.

During the past year two public comfort houses in Church Square Park and Hudson Square Park have been enlarged. Elysian Park is in course of completion. The money expended upon the completion of Elysian Park, while considerable, the improvement was necessary, the work when completed will evidence that the expense was justified. I have recently had the parks examined by an expert who suggested certain recommendations for the future care thereof, and while it may not be possible to bring the parks within the next year to the condition we would like to have them in, we can at least see to it that in all improvements made

thereto, we look to the permanency thereof.

HEALTH.

The health of our city is quite satisfactory. There has been considerable decrease in the infant mortality, and I feel that it is, in a great measure, attributable to the efficient services rendered and recommendations made by the visiting nurses, as well as the opportunity afforded to mothers and children of obtaining pure milk from the stations on Willow avenue, established by Richard Stevens and Robert L. Stevens Fund. The death rate in our city is lower for this past year than previous years. The Board of Health has adopted various ordinances that will very effectively tend to more sanitary conditions. I refer particularly to an ordinance prohibiting the exposing in front of stores of meats and fish, also an ordinance regulating the sale of milk. The Board of Health has taken the initial step in proceedings that will very soon result in an abatement of the nuisances created by the discharge of sewage into our city by municipalities surrounding us.

PLAYGROUNDS.

The recreation centre during the past year has been doing incalculable good, both in keeping our children off the street and making them healthy and useful. It will be a splendid thing if we could extend the scope of this work. It is remarkable the splendid and efficient work that is being accomplished by the Playground Commissioners and their capable superintendent. Our citizens would hardly realize the physical and instructive advantages afforded to the children who avail themselves of the use of the playgrounds. I would recommend that our citizens visit such playgrounds and see for themselves the good work that is being accomplished.

TAXATION.

I feel that our citizens should be advised of the reasons of the increase of their taxes throughout the past five years. In 1907 the amount raised by taxation for the city purposes was \$645,144.20; for State school purposes, \$89,378.59; for county purposes, \$225,112.29. In 1911, the amount of taxes raised for city purposes was \$845,037.51; for State school purposes, \$181,554.57; for county purposes, \$362,538.22. It thus appears that there was an increase in the tax rate between the years 1907 and 1911 of 30 per cent for city purposes, 60 per cent for county purposes, and more than 100 per cent for State school purposes. Throughout the past year, by economizing, and because of my strong recommendations to all municipal departments, the amount of taxes as appropriated for city purposes for the year of 1912 was

\$818,302.80, being a reduction of \$26,735.71 for the amount required for the year of 1911. Notwithstanding the economy practiced in our local administration, the taxes imposed upon our citizens for State school purposes and county purposes are such that our citizens have much reason to complain, but as to which we have no control. Instead of the saving effected in our municipal government, tending to make the tax rate of our city lower, the amount increased for county purposes in 1912 of \$38,271, and the amount increased for State school purposes of \$6,000 have brought about the present or higher tax rate for this year. Our local tax rate will compare most favorably with all other cities of the second class.

CITY HALL.

It is a matter of particular satisfaction that the work of renovating and enlarging our City Hall is practically complete. While it may have seemed to have been unnecessarily delayed, we must realize that the work was prosecuted under many handicaps, principally the occupation of the building by the officials during the progress of the work.

I want to take this occasion to say that all who have visited the City Hall recently are satisfied that it was a much-needed improvement that we can be proud of and that the money was well invested.

SAFE AND SANE FOURTH OF JULY.

The innovation of the appointment of a committee to effectuate the observance of the celebration of Independence Day, last July 4, in a safe and sane manner, proved most satisfactory, and such a committee should be appointed annually hereafter to insure the observance of said holiday without danger or casualty.

In conclusion let me thank the citizens who have assisted me in my administration of the affairs of the city, with their help and advice, and to the various committees appointed by me in the past year, I extend my most sincere thanks.

With best wishes to all for a prosperous and bountiful New Year, I am,

Most respectfully,

The following communication was presented, read and referred to the Committee on Finance and Salaries:	

January 25, 1913.

To the Honorable the Mayor and Council of the City of Hoboken.

Gentlemen—Mr. Daniel J. Gray, City Superintendent of Weights and Measures, advised me some time ago that he had caused to be apprehended and prosecuted for violation of "An act to establish a uniform standard of weights and measures in this State, to establish a department of weights and measures, and to provide penalties for the use of other than standard or legal weights and measures," approved April 24, 1911, and the supplements thereto, commonly known as the weights and measures act, certain persons whom he charged with having violated the provisions of said act, many of whom were found guilty and fines imposed by the court. Under the aforesaid act, all fines imposed upon or penalties collected from persons offending against the provisions of said act are required to be paid by the magistrate receiving the same, where such penalty was incurred within a municipality having a municipal superintendent, into the treasury of such municipality.

Mr. Gray submitted to me the names of a number of persons upon whom fines were imposed for violations of the provisions of the aforesaid act, and prosecutions caused by him, and upon investigation I ascertained that the persons upon whom fines were so imposed were placed in the hands of the probation officer, and to whom said fines were to be paid. I communicated with Richard Stevens, the probation officer of Hudson County, with reference to said matter, requesting that he make payment of the fines collected by him in such cases to the City Treasurer. I received word from the probation officer a few days ago advising me that he had consulted with Judge Blair in reference to my said demand, and that Judge Blair had authorized him to comply therewith. The probation officer informs me that he will turn over to the City Treasurer whatever fines he may collect for the violation of the aforesaid act within the city.

Respectfully,

JOHN J. FALLON,

Corporation Attorney.

On motion of Councilman Duffy the above resolution was adopted by the following vote:

Ayes—Councilmen Delaney, Duffy, La Pointe, Larkin, Luehs, McFee'y, Pflugh, Rath, Schmulling and Chairman Anderson.

Nays—None.

Councilmen Duffy, Luehs, LaPointe, Larkin, Pflugh, Schmulling, McFee'y, Delaney, Rath and Chairman Anderson presented the following:

Whereas, It is manifest that the extortionate price which consumers have been obliged to pay for coal during the past few years, and particularly during the past six months, is inexcusable, and an outrageous imposition upon a long suffering public; and,

Whereas, Recent revelations from the inquiry into the operation of coal dealers have demonstrated that the public has for a long time past been subjected to an iniquitous scheme whereby the price of coal to consumers has been arbitrarily fixed and maintained by unscrupulous dealers, regardless of the laws of supply and demand; and

Whereas, Assemblyman Charles F. Egan, of Hudson County, has presented to the General Assembly of this State a resolution having for its purpose a thorough legislative

inquiry into the coal question and the alleged combination of coal dealers which it is believed exists in this State, in restraint of trade; and

Whereas, Recent revelations in the County of Hudson indicate that an unlawful, pernicious and unscrupulous combination of coal dealers have for several years past been banded together in our midst having for its ostensible purpose the arbitrary fixing and maintaining of an unreasonable and excessive price upon that necessary commodity—coal;

Resolved, That the Common Council of the City of Hoboken hereby commends the action of Assemblyman Charles F. Egan in presenting to the General Assembly of the State the aforesaid resolution, having for its purpose to thoroughly investigate the alleged combination of coal dealers, in restraint of trade; and, further,

Resolved, That pending the proposed legislative investigation, the Prosecutor of the Pleas of Hudson County be requested to submit to the Grand Jury for its consideration such evidence as has recently come to his knowledge and such evidence as he may readily obtain, tending to show the existence in Hudson County of a combination of coal dealers, in restraint of trade, and in violation of law, with a view of bringing about the indictment, prosecution, conviction and imprisonment of the persons unlawfully forming such iniquitous combination.

Adopted by the following vote:

Ayes—Councilmen Delaney, Duffy, LaPointe, Larkins, Luehs, McFee'y, Pflugh, Rath, Schmulling and Chairman Anderson.

The following communication from His Honor Mayor Cooke was presented, read and referred to the Committee on Fire and Water: Mayor's Office,

Hoboken, N. J., Feb. 13, 1913.

To the Council:

Dear Sirs—In order to establish a better system of fire prevention in our city and to increase the efficiency of the Fire Department in this regard, I deem it advisable and I so recommend to your Honorable Body that your Committee on Fire and Water meet with the Fire Commissioners and the Chief Engineer of the Fire Department as to the advisability of amending our present ordinances or drafting a new ordinance for passage by your Honorable Body, vesting in the Chief Engineer of our Fire Department, through the Fire Commissioners, the right to enter and make inspection of the cellar, area, light shaft or yard of any dwelling house, factory building or any other building of whatsoever kind in the city, and if, after such inspection, the Chief Engineer should find conditions hazardous and inviting fire by carelessness or mismanagement in the accumulation of inflammable material in any cellar, area, light shaft or other place in or about the premises, thereby causing the lives and property of our citizens to be endangered

by fire, and after due notice for the immediate removal of such inflammable material from the premises be served on the party or parties responsible for such hazardous conditions and failure of the party or parties so served to comply with said notice of removal and discontinuance of such hazardous condition, the Chief Engineer be empowered to cause a warrant to be issued for the arrest of such party or parties responsible for or maintaining such hazardous condition, and after conviction be subject to a fine in the amount as in your judgment you may deem adequate.

In my opinion the present ordinances covering this matter, while perhaps good in their day and answered the requirements at that time, are now somewhat antiquated and, by reason of the changed conditions now existing make them ineffective.

Yours truly,
MARTIN COOKE, Mayor.

Whereas, The amount of moneys appropriated by the Board of Tax Commissioners to maintain the Police Department for the present fiscal year is insufficient for such purpose, and it is estimated that the sum of forty-five hundred (\$4,500.00) dollars additional moneys will be required therefor:

Resolved, That the Mayor and Council of the City of Hoboken be and they are hereby requested to provide the aforesaid sum of

forty-five hundred (\$4,500.00) for the purpose of maintaining the Police Department for the remainder of the present fiscal year; and

The following communication from His Honor the Mayor was presented, read and referred to the Committee on Sewers in conjunction with His Honor the Mayor and Corporation Attorney:

To the Council:

Gentlemen—Feeling that Mr. James H. Fuertes could give some timely suggestions in regard to the starting of the 11th and 13th street sewers and their laterals, I communicated with him and enclosed you will find his reply to my inquiry.

Respectfully,

MARTIN COOKE, Mayor.

The following communication from His Honor the Mayor was presented and read:

March 19, 1913.

To the Council:

I return to you herewith, disapproved, the petition of Carl Mueller, of 108-110 Hudson street, for a license as cabaret. My reasons for disapproving the grant of such license are that I feel quite certain that the applicant, Carl Mueller, does not seek such license for an honest purpose. Cabaret licenses, in my opinion, should be granted only to bona fide restaurant proprietors, as in other cities where such class of licenses are granted, if in the opinion of the Council it is deemed advisable to grant any such licenses at all. The purpose of cabaret is doubtless to enable proprietors of restaurants to afford their diners first class entertainment. I am constrained to believe that the object of the applicant, Carl Mueller, is by way of subterfuge to circumvent the provisions of the so-called barmaid ordinance, which has accomplished so much in the uplifting of the moral

condition of our city. The grant of a cabaret license to a place such as that of the petitioner, Carl Mueller, in my estimation, opens up the way for proprietors of such places to supply women in the guise of entertainers, but who will really serve as barmaids or conversationalists, which is now prohibited by ordinance. Furthermore, the applicant, Carl Mueller, is not, in my opinion, a proper person to be granted such a license. My information from the records of the Police Department is that on November 28, 1903, he was charged with the violation of the so-called barmaid ordinance and convicted and fined \$50. On December 3, 1903, he was charged with selling liquor without a license and was convicted and fined \$50. On June 8, 1904, he was again charged with the violation of the so-called barmaid ordinance and was convicted and fined \$50. On July 14, 1910, and May 27, 1911, he was again charged with violating the barmaid ordinance, but in the two latter cases he was not convicted.

An additional reason for my disapproval of the grant of license for cabaret to said Carl Mueller is that the grant of said license by your Honorable Body is for the premises 108-110 Hudson street, and in my opinion you cannot legally grant a license for both of said premises for the one license fee. In conclusion, I desire to say that, aside from my determination to disapprove of the grant of the said cabaret license to Carl Mueller, I consider it unwise that a license should be granted said applicant, considering that he has so frequently been apprehended by the police authorities, charged with the violation of our city ordinance, and on three of said occasions having been convicted and fines imposed. I trust that now I have called your attention to the character of the applicant and his place of business that you will sustain my disapproval, thereby evidencing that we are desirous of granting licenses only to proper persons and places.

Respectfully,

MARTIN COOKE,

Mayor.

Councilman Anderson moved that the communication be received and the license be granted notwithstanding the veto of His Honor the Mayor.

Adopted by the following vote:

Ayes—Councilmen Anderson, Delaney, Larkin, McFeely, Pflugh, Rath and Chairman Duffy.

The following communication was presented, read and referred to the Committee on Finance and Salaries:

March 17, 1913.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—The Court of Errors and Appeals has determined the case of the Mayor and Council of the City of Hoboken, plaintiff in error, vs. Carl Lentz et als., State Board of Equalization of Taxes, etc.; Morris and Essex Railroad Company; Delaware, Lackawanna and Western Railroad Company, lessee; Hoboken Ferry Company, and Richard Bowes, Collector of Taxes of the City of Hoboken, defendants in error, adverse to the city.

The writ of error in the aforesaid case was for the purpose of reviewing the order for judgment of the Supreme Court dismissing the writ of certiorari sued out by the City of Hoboken, directed to the State Board of Equalization of Taxes, the Morris & Essex Railroad Company, the Delaware, Lackawanna & Western Railroad Company, lessee, the Hoboken Ferry Company, and the Collector of Taxes of Hoboken. The certiorari brought up for review the judgment of the State Board of Equalization of Taxes rendered on the appeal of said ferry and railroad companies from an assessment for taxation for the year 1908, against their property located in Hoboken, known as the "lower ferry." By the local assessment the lands were valued at \$1,470,000 and the buildings and improvements at \$440,000. Upon an appeal taken by the ferry and railroad companies to the Hudson County Board of Taxation, the right of the assessors of the City of Hoboken, as well as the valuation placed by them on the property in question was affirmed.

An appeal was then prosecuted by the ferry and railroad companies to the State Board of Equalization of Taxes, upon the ground:

1. That the property taxed was second class railroad property, the same being lands used for railroad purposes, other than the main stem, and therefore not subject to local assessment, and asserting that the local assessment should be annulled.

2. That the assessment upon all the properties enumerated should be revised and corrected.

3. The entire lower ferry property has been assessed by the State Board of Assessors upon a return made by the railroad company. The Assessors of the City of Hoboken had also assessed the same property, claiming that the entire property was not used for railroad purposes.

The State Board of Equalization of Taxes held: "The evidence in this case shows clearly that the only part of the ferry buildings used for local purposes is the lower floor and from the evidence it is also clearly

apparent that this use is three-fourths local and one-fourth railroad use." The State Board thus rendered judgment "That the assessment of \$1,470,000 on the land as assessed by the city, be canceled because said land is used for railroad purposes and is not subject to assessment locally. And that the assessment of \$440,000 on said improvements be cancelled because said improvements are used for railroad purposes, and not subject to assessment locally, excepting the main floor of the main terminal building, which floor is used in the main for local and railroad traveling uses; and that as to the said first floor, the assessment thereof locally is hereby fixed and apportioned at its market value of \$85,000, and for said last mentioned sum the local assessment for improvements is sustained."

In behalf of the City of Hoboken it was contended before the Supreme Court that the determination of the State Board of Equalization of Taxes was wrong, in that, while it admits that a part of the ferry terminal building is used to a definite extent locally, which is readily ascertainable, yet declares that no part of the land on which the building is located is assessable locally, and it was insisted that such proportionate part of the land was assessable locally, as that part of the building used for local purposes and not for railroad travel or use bears to the entire building. In other words, the insistence of the city was that the assessment of the land as well as of the buildings should be apportioned and dealt with partially by the local assessors and partially by the State Board of Assessors.

The Supreme Court affirmed the judgment of the State Board of Equalization of Taxes and the Court of Errors and Appeals has affirmed the judgment of the Supreme Court.

Consequently, the lower ferry property is assessable locally only to the extent of \$85,000, the remainder of the property being assessed by the State Board of Assessors.

A dissenting opinion was filed in the Court of Errors and Appeals by Justice James F. Minturn, which opinion was concurred in by Judges Bogert, Tracy and White.

I deemed it advisable that the local assessors should continue to assess the lower ferry property in accordance with the value is in 1908, until a final determination was made by the Court of Errors and Appeals, and the local assessors accordingly assessed said property for the years 1909, 1910, 1911 and 1912.

It will now be necessary for our local assessors to apply for an allowance to be made to the City of Hoboken, from its ratables, for the current year, occasioned by the reduction of the aforesaid assessment.

I have talked this matter over with Mr. Henry Lohman, President of the Board of Assessors, who will give his immediate attention thereto.

Respectfully yours,

JOHN J. FALLON,
Corporation Attorney.

The following communication was presented, read and referred to the Committee of the Whole:	

Hoboken, N. J., April 3, 1913.

The Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—I filed with the Board of Public Utility Commissioners of New Jersey, on March 25, 1913, a petition of the Mayor and Council of the City of Hoboken against the Public Service Street Railway Company, the object of which being to have said Board make an investigation as to the reasonableness of the rate of fare charged by said company for the transportation of passengers on the Washington street line and Willow avenue line of said company, within the limits of the City of Hoboken. The Secretary of said Board acknowledged to me the receipt of said petition and stated that a copy thereof has been served upon the Public Service Railway Company. The Utility Commissioners will doubtless set a day for the hearing of said matter very shortly.

It will be necessary for the City of Hoboken, in support of the aforesaid petition, to offer evidence of the unreasonableness of the rate of fare charged by said company at the present time for transportation over the aforesaid lines, and I write to you at this time to request that you employ an expert traffic engineer to get together the data and information necessary to enable me to make a proper presentation of the city's complaint in the aforesaid matter. F. Van Z. Lane, an expert traffic engineer, has been recommended to me as a proper person to be employed in said matter. I am advised that Mr. Lane is fully qualified to undertake said work.

Respectfully,

JOHN J. FALLON,
Corporation Attorney.

The following communication from His Honor the Mayor was presented and read:	
May 14, 1913.	

To the Council.

Gentlemen—I herewith return disapproved your resolution of April 23, making an appropriation of \$400 to pay salaries of a milk inspector, and also another resolution appropriating \$600 to pay salaries of district nurses. I also return disapproved a resolution passed April 23 by your Board, appointing Charles Georgot as a Milk Inspector and Anna Hunter and Grace Edwards as District Nurses. My reason for disapproving the foregoing resolutions are that in my opinion the position of milk inspector and district nurses should be under the authority and jurisdiction of the Board of Health.

The proper performance of the duties of the appointees to these would be expected to result in an improvement in the health conditions of our city, particularly with a view toward reducing the infant mortality. Under the circumstances I feel that the Board of Health, who primarily are expected to keep a watchful eye on the health of our citizens, should be entrusted with the full authority and power to supervise the duties of appointees to those positions and have the appointment of them.

Yours truly,

MARTIN COOKE,
Mayor.

The following resolution was presented and read:

Resolved, That Charles Georgeot be and he is hereby appointed as Milk Inspector of the City of Hoboken for the ensuing months of May, June, July and August, at the salary of \$100 per month, subject to the orders of the Committee on Public Health of the Council and Dr. J. Resolved, That Miss Grace Edwards and Miss Anna Hunter be and they are hereby appointed and retained as district nurses of the City of Hoboken, subject to the orders and directions of the Committee on Public Health of the Council and the President of the Board of Health. Service to begin May 1, 1913, and to end August 31, 1913, at the salary of \$75 per month, for the purpose of reducing infant mortality in the City of Hoboken.

The following communication from His Honor the Mayor was presented, read and received:

Hoboken, N. J., May 20, 1913.

To the Council.

Gentlemen—Inasmuch as the bonds in the aggregate sum of \$300,000, for the purpose of repaving certain paved streets, were not sold, I do hereby disapprove of said ordinance.

Yours very truly,

MARTIN COOKE, Mayor.

The following communication from His Honor the Mayor was presented, read and referred to the Committee on Streets and Assessments:

May 28, 1913.

To the members of the Council.

Gentlemen—I would draw the attention of your Honorable Board to the condition of Third street, between Monroe and Jackson streets; also to the fact that the city is at present using for storage purposes for old paving blocks the northeast corner of Third and Jackson streets. Through the continued addition of those blocks to those that are already there it can almost be said

that the city is maintaining a nuisance at that place. I would advise your Board to in some manner dispose of the blocks that are stored there at present, and when advertising for repavement in the future to in some manner dispose of the pavement blocks and receive some compensation for them and at the same time the city will not be creating a condition such as now exists at Third and Jackson streets.

Hoping your board will give this your early consideration as the residents of that neighborhood have been very patient, I am,

Respectfully yours,

MARTIN COOKE, Mayor.

The following communication was presented, read and referred to the Committee on Streets and Assessments:

Hoboken, N. J., May 28, 1913.

To the Council.

Gentlemen—I most respectfully request your Honorable Body to order and arrange the sale of a horse known as the Dan horse, respectfully the property of the city and now too old for the work of this department, and the purchase of a horse to replace him.

Yours very truly,

P. R. GRIFFIN,

Street Commissioner.

The following communication was presented, read and referred to the Committee on Streets and Assessments:

Hoboken, N. J., May 28, 1913.

To the Council.

Gentlemen—I am forwarding a communication received from the Commercial Casualty Insurance Company of Newark, New Jersey, relative to Assembly bill No. 112, which makes the city liable for any or all accidents to laborers working on the city streets or sewers.

Trusting that your Honorable Body will take the matter up and take whatever action you may think proper, I am,

Yours truly,

P. R. GRIFFIN,

Street Commissioner.

The following report was presented, read and referred to the Committee on Sewers:

Hoboken, N. J., June 4, 1913.

To the Honorable Mayor and Council:

Gentlemen—Your attention is called to the condition of the refuse material entering the box drain at 15th street, now being cleaned and repaired by the city. To a large extent the drain is filled with tar sludge and oils, entering at Grand street. The lighter material floats out to the ship basin, causing damage to the vessels lying there, while the heavier portion sinks, forming a gelatinous mass difficult to move and choking the box. This tar sludge should not be allowed to enter. Furthermore, the drain entering at Willow avenue brings a large volume of sand from the 14th street viaduct, which should be separated from surface water by a properly attended settling tank. As the city is under great expense at pres-

ent cleaning the drain, steps should at once be taken to prevent the necessity of doing the work over again.

Respectfully submitted,

RICHARD BEYER.

The following communication was presented, read and received:

June 20, 1913.

To the Honorable the Mayor and Council of the City of Hoboken.

Gentlemen—On January 18, 1913, Mary Podesta, as executrix and trustee under the last will and testament of John Podesta, deceased, conveyed to the Board of Education of the City of Hoboken the premises described as follows: All that certain lot, tract or parcel of land and premises, hereinafter particularly described, situate, lying and being in the City of Hoboken, in the County of Hudson and State of New Jersey, bounded and described as follows: Beginning at the northeast corner of Garden and Third streets, and running thence northerly along the easterly line of Garden street forty-five (45) feet eleven and one-half (11½ inches; thence easterly parallel with Third street ninety-five (95) feet; thence northerly parallel with Garden street four (4) feet and one-half (½) an inch; thence easterly parallel with Third street five (5) feet; thence southerly parallel with Garden street fifty (50) feet to the northerly line of Third street; and thence westerly along said northerly line of Third street one hundred (100) feet to the place of beginning," which conveyance was made as recited in the deed of conveyance "subject to taxes which became due on December 20 last and water rents." Consequently your Honorable Body should, by resolution, direct the Collector of Revenue to cancel said taxes of record. I enclose herewith a resolution which you may adopt to effectuate such purpose.

Respectfully,

JOHN J. FALLON,
Corporation Attorney.

The following report was presented, read and referred to the Committee on Streets and Assessments:

June 25, 1913.

To the Honorable Mayor and Council.

Gentlemen—The contractor, Mr. James Whalen, to whom you awarded the contract for the reconstruction and cleaning of the Fifteenth street box drain and outlet from Grand street to the ship basin has completed the above work.

We found it necessary to uncover the entire box, in order to remove the sand, sewage and tar oil which entirely filled it, and to reconstruct a considerable portion of the drain both in Fifteenth street and in the yard of the Manufacturers' Railroad Company. We have furthermore built manholes, about seventy feet apart, so that in future any stoppage may be adequately removed. The flow is obstructed by several large water pipes in Willow avenue, but as it is inexpedient to either raise the pipes or lower the sewer, the existing condition remains; the manholes now built will, however, enable the removal of any floating obstruction at these places. We would recommend a simple, self-acting wooden gate to be constructed at the end of the wooden box "where it empties into the piled sluice, to prevent the back flow of tidalwater into the box drain. Furthermore, the admission of tar oil and sand into the sewer should be prevented, as mentioned in my communication of June 4 last.

Commendation is due Mr. Whalen for efficiently carrying out a very disagreeable job. Respectfully submitted.

RICHARD BEYER,
Engineer in Charge.

Report of Recorder McGovern on the collection of fines for the month of May, 1913, was presented, read and ordered on file.

The following report was presented, read and referred to the Committee on Finance and Salaries in conjunction with the Corporation Attorney:

Hoboken, N. J., June 25, 1913.

To the Honorable the Mayor and Council of the City of Hoboken, N. J.:

Gentlemen—This is to certify that at a meeting of the Board of School Estimate of the School District of Hoboken, in the County of Hudson and State of New Jersey, held on Tuesday evening, June 24, 1913, upon the presentation of a statement, embodied and recited in a preamble and resolution adopted by the Board of Education of the School District of Hoboken, in the County of Hudson and State of New Jersey, on June 16, 1913,

setting forth the necessity of a further sum of seventy thousand dollars (\$70,000) in addition to the amount already in hand, for the erection and equipment of the school building to be known as Public School No. 1, the Board of School Estimate, after due and careful deliberation, did fix and determine that the sum of seventy thousand (\$70,000) dollars is necessary for the purpose named, as aforesaid, and we do hereby request your Honorable Body to appropriate and borrow the said sum of seventy thousand dollars (\$70,000), and secure the same by the issue of bonds, to be designated "School Bonds."

Respectfully submitted,

Hoboken, N. J., July 1, 1913.

To the Honorable the Board of Common Council:

Gentlemen—I am submitting to you for your consideration the enclosed communication and plans that I have received from Mr. Ernest H. Rowe, executive Secretary of the Jersey City Chamber of Commerce.

I would suggest you referring it to a committee of your Board and personally feel that while Jersey City is deeply interested in this proposed improvement, it will unquestionably improve that section where the improvement is contemplated and increase and make for increased traffic through our city, and give to those entering our city at that point a better impression of the City of Hoboken.

Yours very truly,

MARTIN COOKE, Mayor.

June 21, 1913.

Honorable Martin Cooke, City Hall Hoboken, N. J.:

Dear Sir—Confirming the writer's interview with you this morning we hand you herewith a drawing showing the outlet of Grove street into Newark avenue, Hoboken. It is our earnest wish to see this outlet widened to a more serviceable width. The diagram sets forth some suggestions in this behalf.

It is the purpose of this Chamber to endeavor to have the Jersey City authorities improve Grove Street by repaving it and possibly by setting the curbs back for some distance on each side, making a wider roadway. This street is the principal thoroughfare between the cities of Jersey City and Hoboken for traffic which does not originate or is not destined to the upper sections of Jersey City. On this account the convenience of the widened outlet suggested will apparently be of equal benefit to all owners of vehicles whether they be in Jersey City or Hoboken. We are informed, but have not verified the statement, that owing to the bad condition of the streets which must necessarily be used in going back and forth between Jersey City and Hoboken in the lower section, some traffic avoids the lower section of both cities altogether, moving to and from New York and other points by way of Weehawken and Fort Lee Ferry.

The distinguishing peculiarity of the

situation with respect to this much needed improvement is that the narrow outlet in question lies wholly within the City of Hoboken, as Grove Street is full 60 feet in width right up to the boundary line between the two cities. The improvement, therefore, if undertaken, will necessarily have to be made officially by the Hoboken City authorities. This Chamber, however, proposes that one-half of the necessary expense be borne by Jersey City.

You will understand, of course, that this proposal is thus far wholly informal and we have yet to take it up with the Jersey City officials. Our purpose in communicating with you upon this subject is to ascertain whether the city authorities of Hoboken would consider the making of the suggested improvement and upon what terms.

We are sending copies of this communication and enclosed diagram to the Hoboken Board of Trade and also to the City Engineer of Jersey City, so that he may be informed in case your City Engineer takes the subject up with him.

Awaiting your communication in the premises, believe us,

Very respectfully yours,

ERNEST H. ROWE,

Executive Secretary.

The following communication was presented, read and referred the Committee on Printing and Stationery:	

July 17, 1913.

To the Honorable the Mayor and Council of the City of Hoboken:
Gentlemen—The Hoboken Printing and

Publishing Company (publishers of the Hudson Observer) obtained two judgments against your Honorable Body on July 10, instant, in the Hoboken District Court for moneys due them for publishing notices of general election from September 18 to October 27, inclusive, 1909. The original amount of the bill for publishing said notice was the sum of \$522. The minutes of the Council show that said bills were approved and ordered paid, but they were not paid. The amount of interest which accrued upon said claim up to date of judgment, and which has been included in said judgments, is \$114.64. I am advised by the defendant that they are willing to waive said interest, if the judgments be paid at once. I advise you to make payment of the amount of said judgments at once, less the aforesaid interest, thus saving to the city the sum of \$114.64.

Respectfully,
JOHN J. FALLON,
Corporation Attorney.

The following communication was presented, read and received:

The following report was presented, read and referred to the Committee on Streets and Assessments:

To the Honorable the Mayor and Council.

Gentlemen—The accompanying certificate to the Uvalde Asphalt Paving Company sets forth the amount and distribution of the repairs to the asphalt streets of this city, just completed. We have regraded the roadway in Hudson street, between First and Second streets, in front of fire house of Engine No. 1, which was in a dangerous condition owing to settlement. We found the asphalt pavement on Monroe street rather thin, but have made the patches on this and other streets as thick as possible. Much of the "rotten" pavement has been caused by gas leaks, reducing the asphalt surface to a soft, tarry mass. In replacing the surface the Gas Company has stopped several bad leaks, but leaky piping is still responsible for much repairing. The cuttings and measurements and the proper handling of the repairs have been under constant inspection by an assistant from my office.

Respectfully submitted,

RICHARD BEYER,
Engineer.

September 4, 1913.

To the Mayor and Council, City of Hoboken:

Gentlemen—I beg to inform your Honorable Body that Morris Kleiman, licensee of the junk shop, No. 1326 Clinton street, this city, was on September 2d, and on September 4th fined \$50 (\$100 in all) by Recorder McGovern for violation of Section 398 of the Recompiled Ordinances of the City of Hoboken, by not keeping a record of junk bought by him.

I therefore respectfully request your Honorable Body to revoke the license granted this man. Junk shops so conducted are a danger to the community, and Kleiman's flagrant disregard of our laws warrant immediate action by your Honorable Body.

Respectfully,

PATRICK HAYES.

Chief of Police.

The following report was presented, read and referred to the Committee on Streets

and Assessments:

September 10, 1913.

To the Mayor and Council of the City of Hoboken:

Gentlemen—In accordance with the resolution of the Council, adopted May 14, 1913, for grading and repaving certain streets in the City of Hoboken, N. J., with bitulithic pavement, which work is being done by the Standard Bitulithic Company:

A portion of the streets mentioned in the resolution have been graded and brought up to the required elevation, as established by the city.

Bringing the streets to the required grade has made it necessary to repave such a large portion of the adjoining side street that it would seem advisable to make the improvements to the adjoining side streets more permanent by using the same class of materials as is now being used on the main streets. I therefore recommend that the improvements on Jackson street be continued from Fourth to Fifth streets; Second street from Jackson to Monroe streets; Fourth street from Jackson to Monroe streets; Fifth street from Jefferson to Monroe streets and from Jefferson to Adams street; Sixth street from Jefferson to Madison streets; Jefferson street from Fourth to Third streets; Grand street from Third to Fourth streets; Willow avenue from Fifteenth street to about 100 feet south and from Seventeenth street to the city line; Third street from Clinton street to Monroe street; Clinton street from Eleventh to Twelfth streets, and Eleventh street from Clinton street to about 100 feet eas.

Very respectfully

J. O. WHITEMORE.

The following communication from His Honor the Mayor was presented, read and referred to the Committee on Streets and Assessments:

November 12, 1913.

To the Council.

Gentlemen.—I would respectfully call the attention of your Honorable Body to a condition that exists on Eleventh street, between Adams and Madison streets. That part of Eleventh street is very low and whenever there are rains for an extended period it becomes flooded, and those manufacturers in that neighborhood are almost compelled to close their establishments. I would recommend that your Board have that improvement made by raising said street and relieve that condition as soon as possible.

Yours respectfully,

MARTIN COOKE,
Mayor.

The following communication from His Honor the Mayor was presented, read and referred to the Committee on Licenses:

November 11, 1913.

To the Council.

Gentlemen—There has been received by the City Clerk, and will be presented to your Honorable Body to-day, an application from Edward I. Reich, for a cabaret license at 72 Hudson street; also an application from Felix De Giuli, for a cabaret license at 68-70 Hudson street.

I feel that it is incumbent upon me as Mayor, and also as President of the Board of Police Commissioners, to protest against the granting of either of those licenses. Whatever justification there might have been for the granting of cabaret licenses last year, the experience of the past year should lead us to refuse the petition of anyone applying for a cabaret license in the future. These places have drawn a class of undesirable characters that have brought ill-repute upon the good name of our City. The citizens of Hoboken have always been proud, and justly so, of the splendid reputation the City has maintained in regard to its moral conditions, and it seems incomprehensible that we should allow strangers to take that reputation away from us. Fully assured that your body will see this in the light that I do, I remain,

Respectfully yours,

MARTIN COOKE,
Mayor.

The following report was presented, read

and received:

November 12, 1913.

To the Honorable the Mayor and Council of the City of Hoboken.

Gentlemen.—The Council, on September 24, 1913, passed a resolution, which was approved by his Honor, Mayor Cooke, on the same date, directing that there be submitted to the voters of the City of Hoboken, at the next general election, to be held in and for said City, on Tuesday, November 4, 1913, the question of the adoption of the provisions of Chapter 256 of the Laws of New Jersey, Session of 1913, entitled: "An act to regulate the pay or salary of certain officers and other employes of the fully paid fire department in all cities of the second class in this State," approved April 3, 1913, and directing that public notice of the time and place of such election and the purpose thereof be given by publication in the Hudson Observer, the official newspaper of said City.

In compliance with said resolution, and pursuant to the provisions of the aforesaid act, I caused public notice of the time and place of such election and the purpose thereof to be given by publication in the Hudson Observer, the official newspaper of the City of Hoboken, published and circulated in said City, once a week for at least four weeks before said election, to wit: before November 4, 1913, that the legal voters of the City of Hoboken should have submitted to them at the general election to be held in and for said City on November 4, 1913, between the hours of 6 a. m. and 7 p. m., at the various polling places throughout the City of Hoboken, the question of the adoption of the act of the Legislature hereinabove mentioned. I annex hereto proof of the publication of the aforesaid notice in said newspaper.

I also prepared and certified under my hand and the seal of the City, a copy of said resolution to the County Clerk.

At said general election, held November 4, 1913, a majority of the votes recorded as having voted upon the question submitted as aforesaid, voted in favor of the adoption of said act.

The following is a particular statement of the result of said election upon the question of the adoption of said act:

RICHARD BOWES,
Collector of Revenue.

The following report was presented, read and referred to the Committee on Streets and Assessments:

Hoboken, October 22, 1913.

To the Hon. Mayor and Council.

Gentlemen—The repaving of Ferry street calls for the immediate co-operation of the Public Service Railway Company in raising their tracks to the new street grade. As the Dock Contractor Company can only pave within 18 inches of the rails, the unfinished edge so formed cannot be maintained, the concrete base being broken and paving stones displaced by passing vehicles. This will cause the city additional expense, as that part of the street so disturbed must be rebuilt after the Public Service Company has constructed its 8 feet of paving. For correct and proper construction the tracks should be brought to grade before the stones are set, so that the surface of the street conforms with the rails, as it is difficult to make the rails conform to the paved surface.

Respectfully submitted,

RICHARD BEYER.

Engineer in Charge of Improvement.

Report of Joseph H. Cummings, Inspector of Buildings, for the month of October, 1913, was presented, read and ordered on file.

Certificate No. 6 from Richard Beyer, Engineer, for the sum of \$60 in favor of Edward Moran, inspector on the improvement of Ferry street, was presented, read and referred to the Committee on Streets and Assessments.

The following report was presented, read and referred to the Committee on Printing and Stationery:

November 24, 1913.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—In the certiorari matter, Lawrence Fagan vs. Mayor and Council of the City of Hoboken and Ivins Printing and Publishing Company, also in the certiorari matter of George Gonzales vs. the same parties, the Court of Errors and Appeals, on November 17th instant, decided said matters in favor of the aforesaid prosecutors.

Application was made by said prosecutors, in the first instance, to Honorable Francis J. Swayze, one of the Justices of the Supreme Court, for a writ of certiorari to review the action of your Honorable Body in making payment of certain claims, for municipal advertisements, to Ivins printing and Publishing Company, publishers of the "New Inquirer," and after a hearing in said matter said Justice denied said writ. Thereafter a

writ of certiorari was allowed by Justice Bergen of the Supreme Court, and after a hearing had before the Supreme Court, said latter writ was dismissed. From said determination of the Supreme Court an appeal was had to the Court of Errors and Appeals.

Chapter 245 of the Laws of 1892 (P. L. 1892, p. 414) provides "That it shall be lawful for the Common Council, Board of Aldermen or other governing body, with the consent of the Mayor of any city of the second class in this State, to designate by resolution the official newspaper or newspapers published in any such city, in which shall be solely published all official notices, ordinances, advertisements, minutes and official proceedings relating to the municipal affairs of such city, and to fix the compensation to be paid by the city for the service rendered by such official newspaper or newspapers." Pursuant to the provisions of said act the Common Council of the City of Hoboken, on January 2, 1903, adopted a resolution which reads as follows: "Resolved, That the Observer be, and it is hereby designated as the official newspaper in which shall be printed all notices, ordinances and rulings of the municipal affairs of the City of Hoboken, and that the compensation to be paid for such services rendered by such newspaper shall be such as is prescribed by law," and said resolution was approved by the then Mayor of the city.

I contended before the Court that the designation of the Observer as the official newspaper, by resolution of January 2, 1903, was operative for said year only, and that the Common Council, as it was constituted in 1903, could not by the adoption of such resolution, bind subsequent Councils.

Justice Swayze in the opinion rendered by him in denying the writ of certiorari prayed for by said prosecutors said: "The prosecutor relied upon the designation of the Hoboken Observer as the official newspaper of the city several years ago and the fact that there has been no formal revocation since that time. I think, however, that the action of that Council in designating The Observer could not bind subsequent Councils where the approval of the Mayor was secured. There has been no formal change in the designation of a newspaper, but by the action of the Mayor and Council notices have been published in The Inquirer and the bill has been audited and ordered paid. I think that, although this action was informal, it was such an action as might subject the city to liability by reason of satisfaction, and in that respect it comes within the rule laid down in *Car, Spring & Rubber Company v. Jersey City*, 35 Vroom, 544, and is distinguished from *Jersey City Supply Company v. Jersey City*, 42 Vroom, 631, for, as I

understand the evidence, the Mayor and Council both have concurred in ordering these bills paid and issuing the warrants therefor. It is not important that the action should be formal in such a case. I therefore deny the writ."

Justice Kalisch, who wrote the opinion for the Supreme Court, in dismissing the writs of certiorari obtained by said prosecutors in April, 1913, says, among other things, that the action of the Mayor and Council in authorizing or ratifying publication in an additional newspaper to the one contained in the resolution of 1903 was equivalent to the designation of an official newspaper, and that such need not be done by formal resolution; that it might be informally done by the Common Council, so long as it receives the Mayor's consent; that acts done by the Common Council with the consent of the Mayor regarding the publication of notices, etc., in a newspaper not designated official by a formal resolution may be equivalent to such official designation; that the bills attacked in said proceeding were ordered paid by a resolution of the Common Council, with the approval of the Mayor, and the public had the benefit and reaped the advantage of the work performed, and it would be not only an unconscionable act but one contrary to the best legal thought pervading our decisions to deny the claimant's right to compensation merely because there was an informality in the procedure on the part of the Common Council in a non-essential requirement.

The Court of Errors and Appeals in its opinion did not directly pass upon the question as to whether the resolution of January 2, 1903, designating the Observer as the official newspaper, continued in force after said year, but seemingly takes it for granted that the Observer was the official newspaper of the city at the time when the claims were ordered paid by the Mayor and Council to the New Inquirer.

Justice Bergen, in writing the opinion for the Court of Errors and Appeals says: "The act referred to provides 'That it shall be lawful for the Common Council' to designate an official newspaper and, as this involves a public interest, the words 'shall be lawful' must be interpreted as mandatory, *Centray Land Company vs. Bayonne*, 27 Vr. 297, and in obedience to this mandatory provision, the Common Council of the city of Hoboken designated the 'Hoboken Observer' as the official newspaper, 'in which shall be solely published' all official notices, and as they have designated no other newspaper in the manner required by the statute, that newspaper was the only one which could lawfully be authorized by the municipality to

publish such advertisements as the city was required by law to publish. * * * And in our opinion the statute under consideration is a bar to the right of the Common Council, even the approval of the Mayor, to the use the public funds to pay for advertisements published in any but the official newspaper. The mandate is to publish 'solely' in the official newspaper, and to hold that an approval of a bill for printing amounts to the appointment of an official newspaper, would give the statute an effect not expressed in it, and permit the doing of that which he act manifestly was intended to prevent, namely indiscriminate publications by newspapers, not officially appointed, with the hope and expectation, generally realized, that the Common Council would pay after publication. The City Clerk had no authority to order this publication and it stands on no better basis than if it had been published without authority, and as he power of the Common Council to publish such notices is limited by statute to the newspaper appointed according to its terms for that purpose, it could not ratify the unlawful act of its agent. The judgment of the Supreme Court will be reversed and the proceedings and resolutions brought up for review set aside."

As the matter stands at present, therefore, your honorable body is without authority to publish notices, ordinances, advertisements, minutes and official proceedings relating to the municipal affairs of the city, in other than the Hudson Observer, heretofore designated by you as the official paper of the city. You are authorized, however, by the act of 1892, above mentioned, to designate, by resolution, with the consent of the Mayor, other newspapers in which shall be published all official notices &c.

It would be well for your honorable body on the first day of January of each year, hereafter, to designate such official newspaper or newspapers as you may determine upon wherein shall be solely published all official notices, ordinances, advertisements, minutes and official proceedings relating to the municipal affairs of the city, and to fix a compensation to be paid by the city for the service rendered by such official newspaper of newspapers.

Respectfully,

JOHN J. FALLON,
Corporation Attorney.

The following communication from His Honor the Mayor was presented and read:	
Hoboken, N. J., Dec. 10, 1913.	

To the Council.

Gentlemen.—In returning without my approval your resolution providing for a temporary loan, I would state that I have ascertained the claims on file and the reason for issuing the bond, and I find that nearly all of the items that would be taken care of by this temporary loan, should have been included in the last tax budget if deemed necessary or should wait until the next tax board makes the appropriation. Temporary loans, in my judgment, should not be resorted to, except unforeseen and necessary expenditure have come up, and after due consideration.

Your Board has at its disposal a contingent fund that will take care of these items that might have been considered necessary after any particular fund has been exhausted, and that should be conserved and be adequate to meet all such items.

Yours respectfully,

MARTIN COOKE,

Mayor.

Councilman Delaney moved that the communication from His Honor the Mayor be received and that the resolution that the City Treasurer be authorized to borrow a temporary loan for the sum of \$3,600 to defray current expenses, passed November 26, 1913, be passed notwithstanding the veto of His Honor the Mayor.

Adopted by the following vote:

Ayes—Councilmen Anderson, Delaney, La Pointe, Larkin, Luehs, McFeely, Rath and Chairman Duffy.

Nay—Councilman Schmulling.

Absent—Councilman Pflugh.

The following communication from His Honor the Mayor was presented and read:
Hoboken, N. J., Dec. 10, 1913.

To the Council.

Gentlemen.—I am returning disapproved an ordinance passed by your Honorable Body at a meeting held on November 26, 1913, creating the position of Claim and License Clerk, the duties prescribe for the position have been heretofore performed by the City Clerk and his assistants, I don't know whether the members of your Board have personally investigated into the necessity of creating this position or not. For the first year of my term my office was adjacent to the office of the City Clerk, and from my observation I can safely say that, outside of a day on which a Council meeting would be held and the day following it, the work of the office could be kept up by the City Clerk and one assistant on the job every day.

Yours respectfully,

MARTIN COOKE,

Mayor.

Councilman Delaney moved that the communication from His Honor the Mayor be received, and that "An ordinance to establish and provide for a Claim and License Clerk in the office of the City Clerk," passed November 26, 1913, be passed notwithstanding the veto of His Honor the Mayor.

Adopted by the following vote:

Ayes—Councilmen Anderson, Delaney, La Pointe, Larkin, Luehs, McFeely, Rath and Chairman Duffy.

Nay—Councilman Schmulling.

Absent—Councilman Pflugh.

The following communication from His Honor the Mayor was presented and read:
Hoboken, N. J., Dec. 10, 1913.

To the Council.

Gentlemen.—I herewith return disapproved an ordinance passed by your Board creating the position of Clerk of the Street Department. My reasons therefor are that I do not consider it necessary to create such an office.

It is apparent to me that the work of the office of the Street Department is no more onerous now than it has been heretofore, and that we should not put this additional expense on the people.

Yours respectfully,

MARTIN COOKE,

Mayor.

Councilman Delaney moved that the communication from His Honor the Mayor be received and that "An ordinance to establish and provide for a Clerk in the office of

the Street Commissioner and to define his duties, passed November 26, 1913, be passed notwithstanding the veto of His Honor the Mayor.

Adopted by the following vote:

Ayes—Councilmen Anderson, Delaney, La Pointe, Larkin, Luehs, McFeely, Rath and Chairman Duffy.

The following communication was presented, read and received:

Hoboken, N. J., Dec. 10, 1913.

To the Honorable Mayor and Council of the City of Hoboken.

Gentlemen.—I beg to report that the Supreme Court has sustained "An ordinance to provide for the licensing, regulation and control of the business of making or giving advancements or loans of money or other things of value and of taking or receiving as collateral security therefor pledges of personal property, chattel mortgages or assignments of salary or wages or power of attorney authorizing the execution of such assignment of salary or wages and fixing the license fees therefor, and to raise revenue by means of license fees to be imposed upon such business," passed by Your Honorable Body on October 15th, 1912.

Judge Collins, informed me that he intended to carry the matter to the Court of Appeals. The appeal will be heard at the next term of the Court of Errors.

Very respectfully,

HORACE L. ALLEN,

Assistant Corporation Attorney.

The following communication from His Honor the Mayor was presented, read and referred to the Committee on Streets and Assessments:

Hoboken, N. J., Dec. 17, 1913.

To the Honorable Members of the Council:

Gentlemen—There is a petition before your Honorable Body for the improvement of Third street, between Jackson and Harrison streets, which petition requests that you pave said street with the Belgian blocks taken from the streets that were recently re-surfaced with a smooth pavement. I would recommend that this improvement be made.

Yours respectfully,

MARTIN COOKE, Mayor

The following report was presented, read and referred to the Committee on Finance and Salaries:

December 15, 1913.

The Honorable Mayor and Council, Hoboken, N. J.:

Gentlemen—I beg to advise your Honorable

Body that there will be due and payable on January 1, 1914, the sum of seven thousand five hundred dollars (\$7,500), being six months' interest on "Repavement Bonds," for which there have been no provision made in the tax budget for the year 1913.

Inasmuch as we received a premium on the sale of said bonds, amounting to eighteen thousand four hundred and ninety-eight dollars (\$18,498), I would beg to suggest to your Honorable Body that a sum sufficient to meet the interest due on January 1, 1914, amounting to \$7,500, be transferred from the premium to the Interest Fund.

There will also be due on this date the sum of nineteen hundred and twelve dollars and fifty cents (\$1,912.50), being six months' interest on "Ferry Street Repavement Bonds," and for which no premium was received and which were sold subsequent to the making of the tax budget for 1913. It will therefore be necessary for your Honorable Body to have a temporary loan issued for the amount as above (\$1,912.50), which said loan will be included in the tax budget for 1914.

Respectfully submitted,

JAMES SMITH, City Treasurer.

Whereas, Said law provides that "No Corporation, firm, association, individual, or aggregations of individuals, hereinafter called "insurer" doing the business of insurance within the State shall fix or make any rate or schedule of rates, or charge, demand, collect or receive, directly or indirectly, or through any special rate, tariff, drawback, rebate, concession, devise or subterfuge, a rate for insurance, which discriminates unfairly between risks within this State of essentially the same hazard, and which said rates shall be filed by such insurer or its agent or expert duly authorized with the Commissioner of Banking and Insurance, etc.; and

Whereas, Under said law it is further provided that any one or more of such insurers singly or jointly may employ for the making of such general basis schedules and rates and the filing of the same and the services of such experts as it or they may deem advisable for such purpose; and

Whereas, Since the passage of this law advantage has been taken thereof by said insurers to unreasonably increase rates making insurance prohibitory in numerous instances thereby working hardship to the insuring public of the City of Hoboken, N. J.; therefore be it

Resolved, That the Common Council of the City of Hoboken, do hereby condemn the enactment of said law, and publicly places itself upon record as unalterably opposed to any unjust, unreasonable and discriminatory advance of rates of fire insurance and request the Members of Assembly of this county in conjunction with the Committee on Laws of the Common Council of the City of Hoboken, N. ON REASSEMBLING.

Absent—Councilman Pflugh.

Councilman McFeely presented the following:

To the Mayor and Common Council of the City of Hoboken:

Whereas, The citizens of the City of Hoboken for many years past have been loudly protesting against the unreasonable and unjust rate of fare charged by the Public Service Street Railway Company for the carriage of passengers on and throughout the limits of said city, to wit: the sum of five cents; and

Whereas, There has been much agitation, public discussion and newspaper comment regarding the attaining of the reduction of said rate of fare by said Public Service Railway Company for the carriage of passengers on and throughout the streets of said city, and His Honor the Mayor and the Board of Trade and other civic societies have heretofore manifested their deep interest in seeking to obtain said reduction; and

Whereas, The Public Service Railway Company has totally ignored the reasonable demands of the citizens of the City of Hoboken for a reduction of the rate of fare for the transportation of passengers over its street railway lines in and throughout the limits of the City of Hoboken; and

Whereas, Public-spirited citizens have, in consequence of the refusal of the said Public Service Railway Company to comply with the reasonable demands of the citizens of this municipality for a reduction of fare, as aforesaid, inaugurated at considerable outlay and expense, a motor bus line, to be operated in and upon the streets of the City of Hoboken, namely, upon Washington, Hudson, Garden, Park Ave., First and other asphalted streets of the City of Hoboken, for the carriage and conveyance of passengers, and are charging

therefor as a rate of fare the very low and reasonable rate of three cents per trip, which we consider to be a most reasonable charge for such service; and

Whereas, It is manifest to the Common Council of the City of Hoboken that our citizens have by their very generous patronage of said motor bus line, throughout the past five days, during which time the said service has been in operation, clearly indicated that the rate of fare charged by the Public Service Railway Company, to wit: five cents, is unreasonable, if not in fact extortionate; and

Whereas, The Common Council of the City of Hoboken does hereby express its disapproval and condemnation of the ungenerous and inconsiderate action of the Public Service Railway Company, in ignoring the most reasonable demands of our citizens for a reduction of the rate of fare over its lines throughout the city, to the sum of three cents, a sum which, in our opinion, is all that such service is reasonably worth;

Resolved, That the Common Council of the City of Hoboken does hereby express its

gratification and approval of the unselfish public spirit which has actuated the promoters and operators of said motor bus line in affording to our citizens up-to-date conveyances throughout our city for the most reasonable fare of three cents; and further be it

Resolved, That in order to extend to such parties, to wit: The Hoboken and North Hudson Motor Bus Transportation Company, the encouragement that their aforesaid action merits, said company have the exclusive privilege of operating its said motor bus conveyances on and upon the aforesaid streets until the further order of the Council in the premises.

Adopted by the following vote:

Ayes—Councilmen Anderson, Delaney, La Pointe, Luehs, McFeely, Rath and Chairman Duffy.

Nays—Councilmen Larkin and Schmulling.
Absent—Councilman Pfugh.

On motion of Councilman Anderson the Board adjourned.
